

Ryder Dedicated Transportation Solutions Fact Sheet

Ryder Dedicated Transportation Solutions (DTS)

Dedicated Transportation Solutions (DTS) are ideal for companies with specialized equipment or product handling needs, complex routes, rigorous service level agreements or high driver turnover. Ryder DTS helps fleets be nimble, run lean, and stay safe.

DTS provides the management expertise, fleet leverage, driver performance and unmatched safety track record to deliver outstanding service to your customers. With DTS, businesses are able to adapt to changing demand, staffing and service needs, using skilled drivers that have been properly hired, trained, and managed. Ryder helps fleets meet unique handling needs with specialized vehicles and equipment customized for their industries and operations, and expertly maintained by a network of more than 5,000 technicians.
